

## Updating Printer Drivers for Laptops (PC only)

### Before you begin:

These instructions are only for patrons that have installed library printers **before 5/6/2009 on a PC. Mac users are unaffected.** These instructions show how to update your drivers to a better functioning version. If you have set up a library printer for your laptop after 5/6/2009, you do not need these instructions.

### Downloading Printer Driver:

You must have the proper **Canon iR3025** printer driver, last updated on 5/6/2009. Download the appropriate driver at: <http://www.asu.edu/lib/resources/networked/printing>.

- a. Select Canon\_ir3025\_x32.zip for XP/Vista 32-bit
- b. Select Canon\_ir3025\_x64.zip for XP/Vista 64-bit

**\*\*\*Note:** *If you don't know which is the correct choice for your laptop, download the x32 driver. \*\*\**

Extract the zipped file, and note the location of the extracted files for a later step.

### Updating Printer Driver:

1. Click **Start**, choose **"Printers and Faxes,"** then right click the library printer to update and choose **properties**.
2. The **Printer Properties** page appears. Select the **Advanced** tab along the top.
3. The **Advanced** tab appears. Click the **"New Driver"** button.
4. The **"Add Printer Driver Wizard"** appears. Hit **"Next."**
5. The **"Printer Driver Selection"** screen appears. Choose **"Have Disk"** and browse to the directory you extracted the printer drivers. Select the **"P5..."** file and choose **"Open"** then **"OK."**
6. **Canon iR3025 PCL5e** should be selected. If it isn't, select it then hit **"Next"** and then **"Finish."** The drivers will copy. Finally, click **"OK"** to close the **"Printer Properties"** page.

### Need Help?

Please contact the Library Systems Help Desk at 480-965-9093 for assistance.
