Historical Sketch

The Metropolitan Canal Alliance is a project of the Junior League of Phoenix, an organization of women committed to promoting voluntarism and to improving the community through the effective action and leadership of trained volunteers.

Established in the late 1980s, the Metropolitan Canal Alliance (MCA) is dedicated to preservation and enhanced awareness of canals in Arizona's Salt River Valley. This non-profit organization sponsors exhibits, lectures, tours, and research regarding the topic.

Scope and Content Note

The Metropolitan Canal Alliance Collection contains over four hundred photographs compiled from various sources for the Scottsdale Center for the Arts Spring 1997 exhibit, "Following the Water: Historical and Contemporary Photographs of Salt River Valley Canals." Images date from 1900-1990s. Textual records in the collection include historical research files and project files documenting the activities of the organization.

The collection is divided into twelve series: 1) MCA Batch Files, 2) Exhibit Working Files, 3) Exhibit Source Files, 4) Printed Matter, 5) Working Prints, 6) Canal Photos, 7) Canal Slides, 8) Unused Work Prints, 9) Oversize Photo Prints 10) Exhibit Prints, 11) Oversize Exhibit Map, and 12) Project Files. Of particular import are Series Two and Series Three which document the evolution of the exhibit and the sources for the original photographs which include both public and private repositories as well as private collectors. Series Six and Series Seven provide contemporary photo documentation (1980s-1990s) of historic canal site locations. Series Ten is the collection of black and white photographic prints (still framed) which were used in the Scottsdale exhibit. The
collection was donated by Marie Navarre and Sharon Southerland of the Metropolitan Canal Alliance in March 1998 and December 2012.
